

ZERO WASTE PARTY PACK

Thanks for choosing to make your party Zero Waste! There are enough compostable plates, cutlery, cups, and napkins for 25 people and everything can go back into the compostable bag when you are finished for easy cleanup.

Here are a few simple do's and don't about what goes in the compost:

- DO put all food scraps (including bread, meat, candy, cheese, even that bright red frosting) in the compost.
- DO put any paper with food on it in the bag, including paper towels, napkins, and even cupcake wrappers (unless they are tinfoil)
- DO put all of the plates, cups, napkins, cutlery, etc. back into the bag.
- DO NOT put plastic wrappers, recycling, or any garbage in the bag.
- DO NOT put liquid in the bag. Liquid can be composted but these bags break down really easily and it will get very messy.

If you have any questions, feel free to ask Sherry Holland or call me (Sarah) at 303.388.6981.

THANK YOU!

ZERO WASTE PARTY PACK
